

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary

Provider: USG Corporation

Length: 1.0 hour

Credits: 1.0 LU Hours

HSW: YES

Program: Acoustical Ceiling Systems	Program #: ACS01 (IDCEC 4974)
Description: A discussion on the properties and performance characteristics of Acoustical Ceiling Systems, and the six factors to be examined when selecting an acoustical ceiling panel – Sustainability, Sound Control, Abuse Resistance, Aesthetics, Moisture Control, and Fire Resistance, which will be presented in a following presentation..	
Learning Objectives: At the end of this program the participants will be able to: Select and design an appropriate Acoustical Ceiling System as required by a projects design criteria and programmatic requirements.	

Program : Fire Resistive Ceiling Panels & Systems	Program #: USG-023
Description: Discussion of the design requirements and solutions to the various types of ceiling panels & grid suspension systems as regards fire resistive assemblies. Provide navigating shortcuts for the Underwriters Laboratories Inc. website (www.ul.com).	
Learning Objectives: At the end of this program the participants will be able to: Recognize the different types of ceiling panels, know the design requirements and solutions relative to fire resistive ceiling assemblies.	

Program : Seismic Ceilings	Program #: SR01 (IDCEC 4978)
Description: A history and discussion of seismic restraint, determining seismic design category, and designing suspended ceiling systems to meet local building code requirements.	
Learning Objectives: At the end of this program the participants will be able to: Understand the requirements for designing a suspended ceiling according to seismic design category and local building code requirements for Seismic Restraint.	

Target Audience: Architects, engineers, specifiers, owners, and other design professionals in the industrial/educational/commercial construction market. Ideal audience size is 20-30; however, smaller or larger groups can be accommodated easily. Experience level of the audience may vary from beginner to advanced.

Presenter Qualifications: USG certifies all CES course presenters through a two-day presentation training program on CES Provider Guideline changes or modifications, and presentation skills. Each facilitator attends several courses on the presentation topic before becoming certified for this subject.

Presenter: Gary T. Yancy, CSI, CDT, LEED® AP

He was employed by USG in 1967 with a brief hiatus in 1976-1977 as a partner in drywall & acoustical subcontracting company in West Texas. Since 2000, he has held the position of Architectural Services in Dallas, Texas. His 40+ year career with USG has been in various sales, marketing and management positions representing most of USG's construction products and systems.

- Currently, Immediate President of Dallas CSI
- Currently, Liaison Director of Fort Worth CSI
- Past President of Fort Worth CSI

PROGRAM WILL BE HELD FRIDAY, FEBRUARY 12, 1:30 TO 4:30 PM AT PELLA WINDOWS AND DOORS OF NEW MEXICO 3700 RUTLEDGE RD. NE ALBUQUERQUE, NM 87109. FOR MORE INFORMATION VISIT WWW.CSIABQ.ORG OR CONTACT PETER HOLLOWAY AT 505-923-3582.
